G2 PROVIDES GEOTECHNICAL ENGINEERING FOR BRIDGE WIDENING PROJECT IN WARREN

Troy, Mich./Sept. 20, 2010 – G2 Consulting Group of Troy, Mich., recently provided geotechnical engineering and foundation design services for the widening of the two existing turn-around bridges located east and west of the Hoover Road bridge over I-696 in Warren, Mich.

The two turn-around bridges are being widened to provide improved turning clearance for larger trucks. The two widened bridges are part of a larger project to rehabilitate seven additional bridges along I-696 in Macomb County, Mich.

Williams & Works of Grand Rapids, Mich., is the project's prime engineering consultant, and HH Engineering of Detroit, Mich., is the bridge design consultant.

Construction is expected to begin this fall and should be completed in 2011.

G2 Consulting Group (www.g2consultinggroup.com and twitter.com/g2_consulting) is a full-service engineering firm providing geotechnical, environmental and construction engineering services to Fortune 500 companies, major utilities, property owners, government agencies and leading architectural, engineering and construction firms across the United States. Based in Troy, Mich., G2 also has offices in Brighton, Mich., and suburban Chicago, Ill.
